

# The Truly Great Outdoors

We asked designer Linda Hayslett of **L.H. Designs** in Los Angeles to dream up the ultimate backyard culinary play space.

## 2. Self-Service

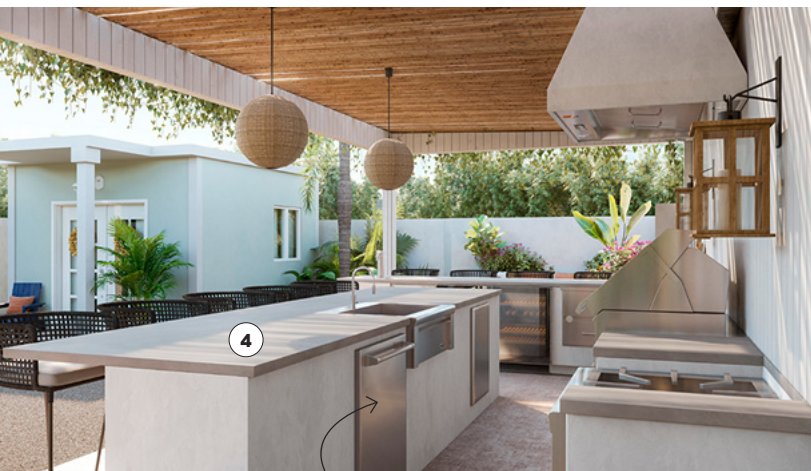

A “help yourself” zone houses a **U-Line Kegerator** (craft beer, please!), and ice maker. A beverage-and-wine fridge, along with an additional fridge/freezer drawer combo (for ice cream!), from **Perlick** keeps kids and parents happy.

## 3. Cook’s Zone

Chef-worthy appliances make this the spot for family cook-outs. A Prestige Pro grill by **Napoleon** anchors the wall, next to warming drawers and a **DCS Series 9 Power Burner** that goes from a big pot simmer at 1,300 BTUs to a whopping 70,000. Crab boil, anyone? A **BEST** hood insert keeps smoke and steam from blowing everyone out of their seats.

## 4. Stronger Surface

Clearskies quartz from **Caesarstone’s** Solaris outdoor collection is highly durable and can withstand the elements. It’s easy to clean and stain-resistant too.

## 1. Creature Comforts

Her scheme: a completely tricked-out kitchen under a pergola-esque structure (ideal for providing shade on those sun-drenched days) with plenty of hangout spots, including a **built-in circular sofa with a firepit for cooler evenings and a bocce court**. The only thing we’d add? A big screen for Netflix nights.

THE ISLAND IS CLEANUP-READY WITH AN ASKO DISHWASHER, AN OUTDOOR SINK, AND A TRASH RECEPTACLE.
